Union

presents a seminar by

Ed Tam

We are excited to host **Dr. Edric (Ed) Tam** for a **virtual seminar**! Dr. Tam is a **statistics** and **machine learning researcher** at **Stanford**, with a PhD from Duke, degrees from UChicago, Yale and Johns Hopkins, and industry experience at Google, Meta, Amazon and Apple. He will discuss **generative AI models**, their underlying statistics, and their applications in industry and science research!
